TALMAGE AS AN ATHLETE

He Will Soon Be a Member of the Columbia Club.

BELIEVES IN FXERCISE

Expert in Bag Panching, Club Swinging, Weight Pulling and Other Exercises-Prefers Running, as It Is a Lung Developer-Enthusiastic Words of the Famous Divine,

Rev. T. De Witt Talmage, of the First Presbyterian Church, has applied for mem-bership in the Columbia Atbletic Club. He was not acquainted there; he was not licited to Join. A free American citizen, feeling the need of a gymnasium, he in-quired for it and was told of the Columbia. It is five minutes' walk from his residence at the Arlington, and probably the best

in the city. It suited him. He walked over to the building a few days ago, found the secretary and had his name posted. At the next meeting of the board of governors he will be voted. One black ball excludes, but there seems sable objection to so genial, eminent and athletic a man.

His accession, on the other hand, will e of advantage to the club in many ways and may be made to help materially the approaching fair to raise money for the pport of the club.

President Alexander Grant, of the club, was seen in regard to the matter at his desk in the railway mail department at the general postoffice "I understand Dr. Talmage has made

application," he said, "but I'm afraid of publicity in the matter. Sir Julian Pauncefote had applied for membership, and was down at the rooms enjoying its privi-leges almost daily, when some newspaper man who is a member wrote a story SIR JULIAN WAS ANNOYED.

"He told how Sir Jalian was stripped to buff and knocking about with the boys and that sort of thing. The old gentle-man felt very much annoyed about it and withdrew his application.

"Of course, regarding Dr. Talmage, I can only speak for myself. I think be will be a very acceptable member. He is a well-built, large, healthy man, and says Dr. Talmage was standing at the Arling-

ton Hotel office when a reported called. His hig form towering above most men about him by a head, and that head was one to attract attention anywhere, Huge, rough-featured, with strength and

kindness speaking from every line and conthusiasm sparkling from the eyes, the great divine is more than approachable; he draws men to him. His most noticeable articles of dress were a large overcoat and a not too shiny tall hat. He was about going attentions. going out, and was inquiring for an au tion on Massachuse

"Massachusetts avenue he had seen advertised for to-day.

"Massachusetts street or avenue, do you call it?" he asked. He has recently acquired the little to the elegant residence of Mrs. Anna Cole, No. 1730 Massachusetts avenue, near Assistant Secretary of the Treasury Hamlin, but he said he had made a contract to live at the Arlington for a year. He exchanged his home in Brooklyn for Mrs. Cole's residence.

ALWAYS LIKED ATHLETICS. "I like to own a place in the city where I live, whether I occupy it or not," he

said.

In reply to a question about the athletic

club, he said:

"I've aiways liked the gymnasiom from boyhood. It's the greatest thing for health. Physical life is a luxury to me. I intend to continue to enjoy it."

"What form of exercise de you prefer?"

"Running. I think there is nothing like it, and have always run every day when I could get the opportantly without making people think there was a fire or something. It fills the lungs to the full, putting oxygen into every air space. Five minutes' run into every air space. nto every air space. Five minutes

"What other gymnastics do you indulge

"Dumb-bells, Indian Clubs, rowing ma-chine, punching the bag-everything, in fact."

fact."
"You're not a follower of Sulitvan?"
"Oh, no; I never hit anybody," was the reply with a smile. "I exercise for my health, not to become an athlete."
"What do you think of wood-chopping?"
The doctor's face lighted with memories of Gladstone and Hawarden.

RUNNING BEATS IT. "Oh, that is good," he replied, "but not so good as running. A good deal of the exercise is in a comparatively stooping posture, which is never so good as when on can stand erect.

"Mr. Gladstone told me all about his wood chopping when I was there. He told me very mirthfully the story of our big trees in California; how two men went to chopping on opposite sides of a tree, and after a week's work one of them happened to walk around to the other side to be surprised to find another chopper at work on the same tree.

"Chopping is not good for a man with heart disease. As we were standing in his wood Mr. Glactstone told me this and pointing to a sump said. There is where Lord So and So," a friend of his, I forget the name, 'fell dead just after cutting down the tree.'

"He takes a sort of personal interest in his trees, and has names for many of them. He showed me a sycamore. I had just come from the Holy Land. He asked if I had seen anything finer there. I had

not."

Dr. Talmage belonged to an athletic club in Philadelphia, afterward to a similar organization on Schermerhom street, in Brooklyn, and of late years has used the Y. M. C. A. gymnasium in Brook-

NEW REAL ESTATE FIRM.

Friends of George E, Emmons and C. W. Simpson Offered Congratulations. Messrs. George E. Emmons and Charles W. Simpson, who form the new real estate firm of George E. Emmons & Co., opened their office at No. 1216 F street northwest at

noon yesterday with an elaborate luncheon, to which all the prominent business men of the city were invited.

The many friends of Mr. Emmons and Mr. Simpson were present to extend their hearty congratulations to these two gen-tlemen, who are among, perhaps, the most popular real estate dealers in the city. occasion was a success and proved one of the most enjoyable events in the history of the firm.

others.

His Wife Deserted Him. Harry A. Barron yesterday sued Alice J. sarron for divorce on the ground of de sertion. They were married on June 17 1890, in Baltimore. The ceremony was sertion. They were married on June 17, 1890, in Baltimore. The ceremony was performed by Rev. A. F. Swengel at his home. They have one child, Madeline Marie, now four years old. The complainant alleges that Mrs. Barron deserted him on October 20, 1893. J. Coleman and Joseph A. Burkart are Mr. Barron's attorneys.

\$1.25 to Baltimore and Return \$1.25 via Pennsylvania Railroad. Tickets sold Saurday and Sunday, No-vember 9 and 10, good to return until Monday, the 11th, on any train.

FOR WOMEN!

One Kind of Protection That Pro-

A Hard Nut for Skepties to Crack Some Figures That Don't Lie.

No one has ever warned people against wearing a certain kind of underwear, drink-ing a certain kind of chocolate or eating a certain kind of bread because the par ticular name of such article, its composition or process of manufacture was protected by

Seven out of every ten articles we ent, drink and wear are legally protected, and there isn't a medical man under the sun who doesn't continually use such articles. Yet a majority of these same men say to their patients that because the United States government has seen fit to recognize and protect the name of a certain medical discovery, regularly qualified practitioners in America—that this fact renders such dis-covery unworthy of public confidence. No traveler, not even a doctor, ever ob-jected to having his or her life saved by a Westimphone ai.

Westinghouse air brake, and no one declines to enjoy the blessings of Edison's electric light or Bell's telephone. All these discov-eries are protected by law. Civilized governments recognize the fact that public but that they require protection for the good of the people. By protecting them the public protects itself. Discoveries that increase the conforts of life and lessen its burdens and dangers are the result of braits study. brains, study and genius, and there is a premium on brains the world over.

Every discovery is entitled to the fruits of his labor, genius, and skill. It is enough that he places his discovery within the

reach of the people. He need not make a partner of the public or a confidant of the The case in point is a discovery which is annually brightening the lives of

THOUSANDS OF WOMEN, a discovery which, according to their own written statements, has rescued over 90, 000 women from conditions of hopeless despondency and despair and brought then happiness and health.

This discovery is legally protected as Dr. Pierce's Favorite Prescription. It is not a patent medicine, but its name and individuality are, for the benefit of all, pro-tected against pirates and humbugs. It is the discovery of Dr. R. V. Pierce, of Buffalo, N. Y., Chief Consulting Physician to the Invalids' Hotel and Surgical Institute and author of the People's Common Sense Medical Adviser, of which over six hundred and eighty thousand copies have already been sold.

Why shouldn't women use it? Its dis-

Why shouldn't women use it? Its discoverer is a regularly qualified physician who has made the treatment of ailments peculiar to women a life study and a life specialty. His thirty years' practice in this special field, during which he, with his staff of specialists have successfully treated hundreds of thousands of cases, has afforded him opportunities enjoyed by no one else for

a neighbor to take Dr. Pierce's Favorite Prescription, a single bottle of which ben-efited her so greatly that she publicly ad-rises all suffering ladies to use this infal-

vises all suffering ladies to use this infal-lible remedy.

Mrs. Jennie Williams, Mohawk, Oregon, vainly tried doctor after doctor for the blinding dizzy spells, palpitation of the heart, pains in back and head, and nervous chilis, with which she suffered over three years. The very first bottle of Dr. Pierce's Favorite Prescription brought grateful relief, and two more (with two of his Golden Medical Discovery) bunished all pain, made her a well, happy and strong woman.

Mrs. William Hoover, Belleville, Ohlo, was given up by three doctors. She suffered from female weakness and could scarcely stand up. Dr. Pierce's Pavorite Prescription made her entirely well and so strong that she now does the work for a family of five.

Mrs. E. A. Trumble, 101 Cambrey street, Sagina w. Mich., after years of untold mis-

Saginaw, Mich., after years of untold mis-ery at the hands of the best physicians in her city, fruilless visits to noted mineral springs, and trying all kinds of local ap-plications without benefit, declares Dr. plications without benefit, deciares or, Pierce's Favorite Prescription a God-send to womankind. It not only cured her, but also prevented miscarrying, and she is the tappy mother of the "prize baby" which received \$50,00 in cash prizes.

Mrs. Anna Dauel, 901 South Main street, Bloomington, Ill., after suffering for eight years from female weakness and womb trouble, became a mere skeleton and had to be carried home from the hospital. Friends then induced her to take Dr. Pierce's Favorite Prescription, which ef-

Pierce's Favorite Prescription, which effected a complete cure.

Mrs. Mary F. Covell, Scotland, Bon Homme Co., South Dakota, was pronounced incurable by the best doctors in the West. Her trouble was falling of the womb and leacorrhea. After giving up all hopes she was quickly made a "well woman" by Dr. Pierce's Favorite Prescription.

The above list could be continued to embrace over 90.000 grateful letters rebrace over 90,000 grateful letters re-ceived by Dr. Pierce, but space forbids.

A GREAT BOOK FREE.

When Dr. Pierce published the first edi-

tion of his work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, \$1.50 per copy, the profit on which would repay him for the great amount of labor and money expend-ed in producing it, he would distribute the next

half million free. As this number of copies has already been sold, he is now distributing, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to nail to him, or the World's Dispensary Medical Association, of Buf-falo, N. Y., of which he is president, this little COU-FON NUMBER with twenty- Coupon one (21) one-

No. 124. cover cost of and the book cent stamps to mailing enly, will be sent

discovering the right method and the right That he should, for his own protection and the protection of his patients who are scattered all over the globe, take advantage of that law, of which every inventor in other fields avails himself, is neither unpro-fessional nor unbusiness-like. It's good sound common sense. In every State, city, town and bamlet,

Dr. Pierce's discoveries have effected just such cures as those reported below. Long neglected, seriously complicated and so-called incurable cases are treated by him by letter with a success that is simply as tounding. Where the ordinary practi-tioner treats one such case, Dr. Pierce and the skilled specialists of the Invalids' Hotel and Surgical Institute treat tens of thousands; and what is regarded by the local doctor as a complicated case, one that puzzles his brain and baffles his skill. is as simple of treatment and sure of being cured in this Institution as is the drawing of a perfect circle to the one man in a mil-This is another instant where practice makes perfect. It is a case where one man can do what millions of others

cannot do.

One reason that women suffer in silence agonies that would make

A COWARD OF MAN
is because her inborn modesty causes her
to shrink from the ordeal of submitting to medical examination and the stereotyped "local treatment." When, finally, turture drives her to seek advice, she, unfortunately, only too often falls into hands that lock the rare ability of drawing that "perfect field," aron, which her rare of the lock of the rare ability of drawing that "perfect field," aron, which her rare of the lock of circle" upon which her peace of mind, her happiness, and her life depend. Instead of the treatment that makes thousands of cures a certainty and failure almost an unheard-of accident, she receives that which makes failure a certainty and the cure a ere accident.

No woman, who is tired of suffering, tired of doctoring, or tired of life, should fail to write Dr. Pierce, or to the World's Dispensary Medical Association, of Buffalo, N. Y., of which he is president. She will receive free of charge, good, sound, pro-fessional advice that will enable her to fessional advice that will enable her to ture herself at home (if her case is curable), pleasantly, painlessly, permanently, and this, too, without having to undergo the trying ordeal of "examinations" and the stereotyped and dreadful treatment by "local applications." If her case is really incurable, she will be told so plainly. But Dr. Pierce's records, covering hundreds of thousands of cases, prove that there are not three incurable cases in a hundred.

Here are a few specimen cures.

Mrs. Homer Clark, 208 West Third street, Sioux City, Iowa, tried doctor after doc-

Sioux City, Iowa, tried doctor after doctor and hospital after hospital, but all to no purpose. She suffered from female weakness and olders of the uterus. She continued growing worse until a drug-gist-Mr. Cummings-advised her to take Dr. Pierce's Favorite Prescription. The first bottle brought relief and its further use effected a cure.

Mrs. Abram Lyon, Lorraine, Jefferson Co., N. Y., was declared incurable co., N. 1., was declared meurable by every physician in her neighborhood. She had falling of the womb and ulceration brought on by the birth of her child. After having been given up to die she was in-duced to take Dr. Pierce's Favorite Pre-

eription which, she says, not only saved her life but cured her permanently.

Mrs. Samuel A. Jacobs, Mechanicsburg.
Pa., after the best physicians in her town could do nothing for her frequent fainting spells and terrible pains in her head, which made life a burden to her, was induced by

and their successful home-treatment with out the aid of a physician and without having to submit to those dreaded "examinaving to subsit to those dreaded "exami-nations," and the stereotyped "local ap-plications," so repulsive to the modestly sensitive woman. The Free Edition is precisely the same as that sold at \$1.50, except only that the books are bound in except only that the cooks are bound in strong manifla paper covers instead of cioth. Dr. Stejneger Returns From Lis

Mission in Bering Sea.

the Fisheries

Dr. Leonhard Steineger, who has been examining the conditions of the seal fisheries in Alaska for the past six months, returned to the city Monday. Dr. Stejneger was seen in his office in the National Museum. In reply to a question

concerning the success of his mission, he

"I was sent by the Fish Commission to ascertain with absolute accuracy just how far our fisheries have been injured by the British system of killing scals at sea. Our American traders have complained for a long time past that the seal is rapidly diminishing in number, and that the fur is also of an inferior quality. This latter condition is due to the fact that the young bearing animal is frequently injured, and as a consequence her offspring is the sufferer. "In order to verify these assertions, in May last the Fish Commission sent me to visit the American fisheries. I have made a scientific investigation of their present number, their habits and health, in comparison to their condition twelve years ago, when I made a similar expedition— this was before the system of piracy at sea began, and it is a just and applicable test of the equity of the late Paris commis-Dr. Stejneger said that he had also vis-

ited the Russian fisheries in Kamschatka, with a view of comparing their present and previous conditions, but, with the excepuon of saying that in both places the seal is rapidly decreasing in numbers, he would

is rapidly decreasing in numbers, he would not disclose the nature of his report.

"It is a very important matter," said the doctor, "and will have to be handled cautiously and slowly. I am now engaged in getting my notes and statistics in proper shape, in order to make my report to the Fish Commission. It will be a voluminous account of what I actually saw and scientifically tested, and on the assembling of Congress the document will be properly presented and its contents made public."

Dr. Stejneger said that he saw no appreciatise difference in the aspect of the country since his last visit. Facilities for traveling are, perchaps, a little better, but in other ways the tide of civilization has made no recognizable track. In regard to the Eskinos, he said that a slight change for the better might be observed in

change for the better might be observed in the American side, morally, but not finan-The Americans are more sober and industrious, and the good work of our missionaries is well written in this improve-nient. The Russian E-kimes are more prosperous in certain ways, and have more money.

"They think," said Dr. Stejneger, drily,

"that they are vastly clillized, because they have now mostly discarded their picturesque native costume of fur and wear store clothes. But it is not an im-provement. Twelve years ago when I was there, the Eskimos, during the long winter there, the Esgimon, during the rong winter when they could not hant or fish, occupied their time making up their fur robes and their wooden shoes, and they were a very decent people. Now they buy their shoes and clothes, and spend all their free time drinking and carousing, and they think they are very civilized; weil, perhaps, they are, ended the doctor, with a laugh. Br. Stefneger spent some time in the Kameiutskan village of Port Petropanloki. It is a very quaint town of about 400 inhabitants. The Russian governor resides there and he was very courteous to our American explorer by providing traveling accommodations, and otherwise furthering his investigations. Most of his fourther was however made in the of his journey was, however, made in the British man-of-war, the Porpoise, and in

the trading vessels of the furriers.

Dr. Stejneger brought home some interesting specimens of arctic birds, ground squirreis, and mice. Among the birds are two very solemn-looking ravens, unusually arge, and of the most satiny plumage. They seem, apparently, of the old-fashioned and well-known raven family, familiar to all readers of Dickens, Poe. and Scott, but Dr. Steineger says that the land of the midnight sun produces an entirely different manght san produce an entirely different species, with many interesting and original characteristics. Two beautiful white sea-gulis are also attracting much attention. He has also many quaint specimens of ivory and wood carving, done mostly by the Russians and sold to the traders and exphorers. Dr. Stejneger is very much pieased with the thorough success of his investiga-tions from a scientific point, and in ad-dition to his government report will write a series of papers on this interesting sub-

Dr. Steineger is one of the most distin-Bit. Stephoger is one of the most distinguished scientists in our large body of scholars. FIVE DAYS OVERDUE. Mysterious Disappearance of the Lake Steamer Missoula.

Saulte Ste. Marie, Mich., Nov. 5.—No tidings have been received of the now five days overdue steamer Missoula. The boat should have reached the canal not later than noon Friday. The three searching parties which left yesterday at noon to locate the Missoula, if possible, have not yet reported.

The Olympia took the outside passage

Fears are entertained here that the boat has either burned or struck one of the many rocks on the north shore and has gone to the bottom. Good weather has prevailed for the past week and the boat has had plenty of time to have reported

to Port Arthur, the steamer Telegram was

if disabled at any point. CANADIAN OUTRAGE.

Kannek Vessels Selze and Carry Away Property of Americans. Cleveland, O., Nov. 5.—A special from Sandusky says: Yesterday afternoon the Canadian cruiser Petrel seized a lot of gill nets and fish owned by Sandusky fishermen.

The fishermen assert that the nets were in American waters.

Had it not been for the swiftness of the tugs they would also have been seized, as the Petrel chased them a mile or more. The fishermen say they will demand an investigation.

TWO FRENCH VIEWS.

Social and Radical Journals Commend and Conservatives Condemn.

Paris, Nov. 5.—The Radical and Socialist press are enthusiastic in their approval of the address delivered in the Chamber of Deputies yesterday by Premier Bourgeois. Deputies yesterialy by Premier Bourgeois, and declare that the country is happy to have at last a firm, clear and sincerely republican programme.

The Journal Des Debats, on the other hand, says there is no doubt that the ministry will fail to command a majority in the Chamber , and the conservative organs accept the moderates of covarilles in failing.

use the moderates of cowardice in falling o rid themselves of such a cabinet at the Berlin, Nov. 5.—The Emperor arrived at his hunting castle in Grufiewala at noon to-day. He wore a check pelerine cloak and a high hat. After luncheon the Em-peror at the head of his hunting party, two bundred in number, started for Huber-tusstock to hunt in the Grunewald forest,

BROKER CHAPMAN'S CASE.

His Trial for Refusing to Testify to Begin To-morrow. The case of the government against Elverton R. Chapman, the broker, for refusal to answer questions in the inves-tigation by Senator Gray's committee into the relations of the American Sugar Refining Company to tariff legislation, eighteen months ago, will be called on Thursday for triple

eighteen montas ago, win be called on Thursday for trial.

District Attorney Birney said yesterday the government is ready for the trial, and if there is any delay it will come from the other side. There has been some talk of an application for a writ of probabilion. but it is not anticipated that much will be effected.

The penalty in the case is \$100 to \$1,000 fine or thirty days to twelve months imprisonment in a "common jail."

Stove Dealer Lipp Assigns. Carvailis M. Lipp, store dealer at No. 1529 Seventh street northwest, assigned yesterday to Mason C. Grasty. His assets consist of stock, \$700; book accounts, \$600. His creditors are mostly out-of-town. Theirclaims amount to about \$2,700.
